

## drawing nearer

just a no hope drawing  
drawing nearer

far away from  
far away  
from the lost hope horizon  
inside

breathing in  
the inside smile  
is all the while  
turning toward  
a new dimension

## **The Pendulum**

the pendulum had been swinging  
since the beginning of time  
somewhere a little closed  
a little beyond the mind  
somewhere in the real  
of how we feel

within the mind  
time had always stood still  
the past and future flowing in  
drawn in  
only by the will

so when the mind  
was cool and calm  
and there was no will  
the pendulum stopped still

then there was nothing beyond the mind  
feelings opened  
the past  
was simply present  
too

and there was  
only me  
and you
