

Brain Waves

inner sky
inner hills

the inner me
finds synchrony

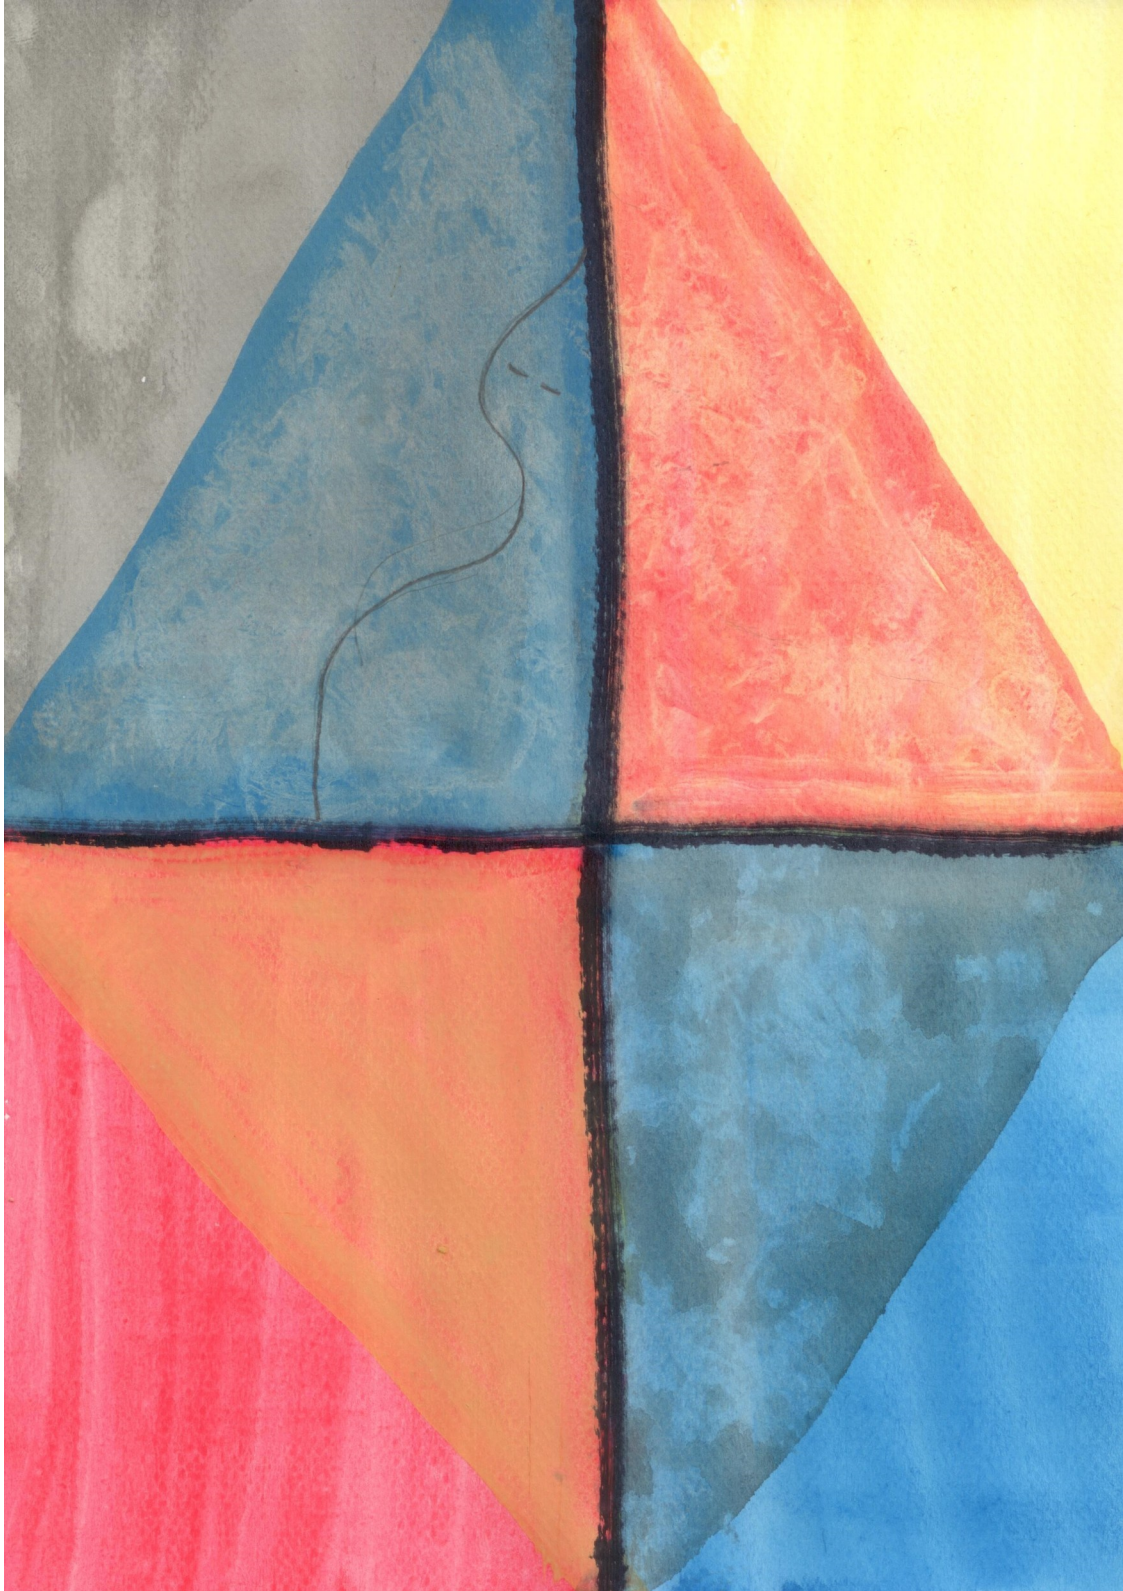

and in the bigger picture
through the senses
reaching, reaching
over the sea and far away
over the desert into green pastures
the mind, becomes whole,
and falls still

and the Lord opened the first cool upper-inner window

the still wave doubled is a circle
wherein the waves find another dimension

inner-inner
river, river, river

calming, calming
and falling still

and, beginning again
the inner wave will begin to behave...
